

MATT - Abdominal Casualty Expectant (MATT-ACE)

Built from the original Multiple Amputation Trauma Trainer (MATT)®, the MATT-ACE delivers unparalleled realism and durability, creating the most authentic simulation of a severe abdominal injuries. Extraordinary visual and tactile realism provide effective desensitization to traumatic amputation and expectant injuries, allowing Medics, Corpsmen, Soldiers, and First Responders to appropriately triage combat casualties.

The MATT-ACE is a multi purpose training system that can function as a stand-alone skills station or be connected to any TraumaFX® upper torso for use in training.

Key Benefits of the MATT-ACE

- Eviscerated abdominals for assessing patient survivability in triaging exercises during multiple casualty scenarios
- Specially formulated synthetic tissue with unparalleled realism and durability
- Highly realistic visual and tactile stimuli including packable intestines
- Water resistant
- Easy to clean and maintain after use
